UP-AND-COMING PAINTER URICH DE KIEV COMMITS SUICIDE IN NORWAY

up-and-coming painter urich de kiev commits suicide in norway. urich de kiev, a 28-year-old ukrainian painter, was found dead in a forest near his home in norway. he had been suffering from a long battle with depression and alcoholism. his death was a shocking loss to the art world, as he was considered one of the most promising young painters of his generation. his work was characterized by dark, moody landscapes and a sense of isolation. his family and friends were devastated by his death, and his death has sparked a debate about the mental health of artists.
